I am a self-learned developer and belong to a middle-class family from Maharashtra, my father is a labour and my mother is a Housewife, so before coming to Navgurukul, I was interested in computer and self-learning, then I got a chance to come to Navgurukul when I came here I focused on two languages which one is Python and second is Basic Javascript with NodeJS.

Academic Period Spent in NavGurukul So Far 1 year

Skills

Python, Javascript, NodeJS,mongoDB,MYSQL

Projects

Turing(E-Commerce)-knexJS (code)
- In this project, users can buy the product and they can add their chosen product in the cart. Also they can remove their choice and many more.

Login-SignUp with Objection-ORM(code)
- I have Created a simple Login_signup with Objection-ORM . Users can sign-up and login and we can update,delete and show user data.

Blogg-app(mongoDB)(code)
- i have created a Blog-app using express.js, mongoDb. user can post his bloggs, update and delete as well

SARAL Request_Coure) (code)
- In this project, I used the Python Requests module to get Saral (Navgurukul's e-learning platform) API and make a small browser in the terminal.

IMDB Scraper(Python) (code)
- i have scraped data of top 250 indian hindi movies using Beautiful Soup

Experience

- **General Secretary (Gen. Sec)**

I have been selected for the post of the Gen. Sec in NavGurkul. To get this post first I have to elect myself and then the Board of the Governor will take the interview. Because of this post I have learned so many things about how to maintain smooth functioning between the Council members and the General Body. Communicating with the Board of the Governor regarding daily affairs. How to handle conflicts between community and council members and main thing in the absence of the Board of the governor i have to take all the leads.

- **Training and placement Coordinator (T&P)**

Main motto of this post is to look for job opportunities for students who are ready to work in the company.

nav gurukul

NavGurukul started by an IIT-D alumnus & Entrepreneurs runs a one-year intense course for *academically bright underprivileged students* to learn programming & get high paying jobs. Students learn without a teacher & hence are self-starters and problem-solvers. You not only hire someone talented & loyal, but also help in increasing the workplace diversity.

- **Mentorship**

I have been selected as a mentor for 4 students in NavGurukul. I got empowered to be capable of taking this opportunity. From this, I have learned how to debug codes & explain the code to mentees which help me in enhancing my knowledge. It helps me in revising my codes too.

NavGurukul (2020 - 2021)

Learning Software Engineering with a one-year residential Programme and also learning many social and teamwork related skills like scrum methodology and coding all day while doing other life skill activities.
